PRESIDENT OF NICARAGUA OUT

Resignation of Estrada Is Surprise to Diplomats.

IN OFFICE LESS THAN A YEAR

He Deposed Señor Madriz, Who Had Been Placed in Power by Former President Zelaya Before His Flight.

MOST ENTHUSIASTIC AUDIENCE AT THE MAY FESTIVAL THURSDAY

Washington, May 12.—The sudden resignation of President Estrada of Nicaragua was a surprise to officers of the state department, who were not aware that his relations with General Mena, the minister of war, had become so acute as to force his retirement.

Estrada's resignation was officially reported to the American Minister Northcott at Managua. Mr. Northcott said that General Adolfo Diaz, the vice president, upon whom President Estrada conferred the executive power, and General Mena were working in accord and are forming a conservative cabinet. President Estrada and General Monacada, minister of Coboration, he added, are at Corinto. Order has been restored at Managua.

In street fighting on May 9 occasioned by the excitement growing out of the relations between Generals Estrada and Mena, two persons, according to Minister Northcott, were killed and twenty-five wounded. Mr. Northcott added that the relations between the legation and the local leaders are cordial and friendly.

President Estrada has been president of Nicaragua for less than a year. It was only last summer that he succeeded in raising an army at Bluefields, on the east coast of Nicaragua, and deposing Señor Madriz, who was put in office by former President Zelaya before his flight from Nicaragua. It has been known for some time that Estrada was having trouble with other prominent citizens of Nicaragua, but it was not suspected that his relations with them were so serious as to cause his resignation. It is expected that Estrada will leave Nicaragua.

Officers of the state department say that the change of administration will not affect the administrative reforms which are now in progress.

ADMIRAL GIBSON DIES

Served in the Pacific Fleet During the Spanish-American War.

New York, May 12.—Rear Admiral William C. Gibson, retired, is dead at his home in Brooklyn from a complication of diseases. He was seventy-two years old.

Admiral Gibson entered the navy during the civil war. He served in the Pacific during the war with Spain and was placed in command of the battleship Texas in 1900.

Operation Kills Major Haines. San Antonio, Tex., May 12.—Major T. Haines, Eleventh United States cavalry, son of General Haines, died in the hospital at Fort Sam Houston following an operation for appendicitis.

TORNADO IN NORTHWEST

Buildings at Felton and Marion, Minn., and Fargo, N. D., Demolished.

Moorehead, Minn., May 12.—A great funnel-shaped cloud, bringing a terrific wind bore down on Felton, Minn., a town twenty miles north of Moorehead, tore down a dozen buildings, blew in every big window and tore up trees in large numbers.

At Marion people rushed for cellars to escape debris and flying timbers. Barns, machine sheds and some small houses were taken bodily off the earth and carried some distance.

At Fargo, N. D., two dozen houses and barns were blown down and many carried far across country. A farmer was seriously hurt.

TAKES LIFE WHILE ILL

Charles D. Garnett of St. Louis Shoots Himself in New York.

New York, May 12.—Charles D. Garnett, said to be a retired paper manufacturer of St. Louis, shot and killed himself in Riverside park.

Mr. Garnett came to New York six weeks ago. He had been in poor health and with his wife had passed the greater part of the last two years in traveling.

BROTHER OF LOCAL PHYSICIAN PASSES AWAY IN LIVINGSTON

Charles E. Hull of Livingston county died Thursday evening after a short illness. The body will be brought to Ann Arbor for burial Saturday noon where services will be held at Forest Hill cemetery. Mr. Hull was a brother of Dr. G. M. Hull of this city.

AIR PUPIL KILLED

His Aeroplane Crashes into Building During Early Morning Mist.

Berlin, May 12.—Herr Bekemuller, an aviation pupil, was killed when his aeroplane crashed against a building that had been hidden from the pilot's view by a heavy early morning mist.

The aviator had been maneuvering in the military field at Johannisthal, and unconsciously flew over the enclosing fence and had no time to save himself. The machine was wrecked.

COMMITTEE QUIZ WILL BE PUSHED

Ohio Senators Persist in Spite of Disapproval.

COMES AFTER GRAND JURY

Senator Yount Tells of Offer Made Him to Work for Bill to Knock Out Bucket Shops—Senators Are Bitter.

Columbus, O., May 12.—State senators betrayed no anxiety over the storm of disapproval because of their decision to push an investigation by senators, with power to grant immunity to witnesses in defiance of Governor Harmon's wishes and the public declaration of reports that the probe proposed was a mere white wash.

It is reported that the committee will not push its hearings until the grand jury is through with its investigation.

C. L. Cassingham, Cleveland coal operator, and W. H. Phipps, federal auditor for the Philippines, who was recalled as he was aboard a ship at San Francisco ready to sail for Manila, were witnesses before the grand jury.

Senator Yount, a witness Wednesday,

said in the senate that he had been offered \$3,500 a year ago to introduce and work for a bill to knock out bucketshops.

He is thought to have made this statement before the grand jury.

Senators on the probing committee show bitterness toward newspapers, and legislative correspondents expect to be the first witnesses summoned along with detectives.

SCHOOL CENSUS 700 SHORT

South Bend Parents Seek to Evade Child Labor Law.

South Bend, Ind., May 12.—Men in charge of the school enumeration here have just found that nearly 700 children were missed because of a misunderstanding of the new child labor law. This measure has caused considerable confusion here, because of the large number of boys and girls employed in the factories.

It is presumed the people refused to give their children's names to the school enumerators in order to evade the child labor act. The condition came to light in the checking up of the returns, and a recount may be made.

GRAFT ON SANITARY CANAL

Trustee Sullivan Investigates Shortage In Collections at Lockport.

Joliet, Ill., May 12.—Systematic grafting has been discovered in the sanitary district power house at Lockport. Trustee Thomas M. Sullivan is at the head of an investigating committee. Six employees were dismissed six weeks ago for selling the district's cement and tools.

The new graft was in the collection department. A big shortage was uncovered. The district sells current to Lockport. Citizens were called to testify regarding their bills. John J. Ward, collector, was permitted to resign May 11.

ILLUSTRATED LECTURE ON GRAND CANYON

Thursday evening in the Presbyterian chapel a stereopticon lecture was given by William B. Hatch on the Grand Canyon of Arizona for the benefit of the Young People's Society of the church. Mr. Hatch preceded the showing of the slides by reading several excellent descriptions which have been written of that wonderful scenery. Fifty slides were shown and both the pictures and the accompanying remarks and explanations were greatly enjoyed.

M. E. Ladies Hold Shower.

Seventy-five ladies of the Methodist church attended the church kitchen shower held Thursday afternoon at the home of Mrs. H. A. Leeson. The articles brought to equip further the kitchen of the church ranged from granite and glassware to creamers and sugar bowls and tumblers, while several ladies had joined in buying a long table cloth to present. Harold Chalmers of London, England, gave a greatly enjoyed program of music. Ice cream and cake were served.

Simple Spot Remover.

This is a recipe for the very best "spot remover" you ever tried.

Two ounces of castile soap shaved fine; two quarts of pure soft water. Boil till soap is thoroughly dissolved; strain and cool. When cool, add one ounce sulphuric ether and two ounces of wood alcohol; shake it well and keep corked.

It is now ready for use and will remove spots and stains from your clothing like magic, especially woolen garments.—"Home Department," in the National Magazine for April.

REWARD

For information as to whereabouts of yellow bicycle which was stolen from Michos' candy store Thursday evening, April 20. Inform Ypsilanti Daily Press.

Fair tonight and Saturday. Cooler in east and central portion tonight. Temperature at noon, 74.

Be sure to get a glass of Liggett's Orangeade next Saturday. It is FREE. Weinmann-Matthews Co., 118 Congress street.

Come in next Saturday, May 13, and get a glass of Liggett's Orangeade. It will cost you nothing and you are not required to make a purchase.

Weinmann-Matthews Co., 118 Congress street.

FUNERAL OF DAVID MASON TO BE HELD SUNDAY AFTERNOON

The funeral of David Mason, who met an untimely death Thursday morning at the railroad crossing in Willis, will be held Sunday afternoon at one o'clock in the Advent church in Willis.

GOV. OSBORN TO SPEAK AT G. A. R. ENCAMPMENT

Reports from Detroit concerning the Christian Endeavor convention to be held there in June are evidently in error as regards the date that Gov. Osborn will speak. The Detroit committee is announcing his address on the evening of June 22, but the following letter to Mr. Rankin in reply to an invitation to speak at the encampment indicates conclusively that the governor will be in Ypsilanti on the evening of June 22 and preparations are being made accordingly:

Honorable H. C. Rankin,
Ypsilanti, Michigan.

My dear Mr. Rankin:

I have your kind letter of May 3 in relation to the state encampment of the G. A. R. at Ypsilanti on June 22. I am looking forward with pleasure to this occasion and shall hope to be present on Thursday evening, June 22, and to take as the subject of my address, "Michigan's War Governor," as you suggest.

With kind regard, I am,

Yours very cordially,

CHASE S. OSBORN.

Governor.

BIG TRACT OF RICH COAL LAND STILL OWNED BY U.S.

Washington, May 12.—Over seventy million acres of coal land in the West is still owned by Uncle Sam. The total content of this land is enormous; it can be figured only in hundreds of billions of tons. Some tracts are of immense value, containing beds of coal of the highest grade, 30, 40, 50, and even 80 feet or more in thickness. The old way was to sell the coal land, regardless of value, at the absurd figure of \$10 an acre if it was more than 15 miles from a railroad or at \$20 if within that limit. The present way is to measure the coal in an acre and sell the land at a price determined by its content of coal. As a result coal land has been priced at even \$400 an acre and one tract at even \$600 an acre. Since March 4, 1909, the Geological Survey has classified, by 40-acre tracts, 8,527,166 acres of the Government coal lands, at a total valuation of \$50,815,081. Including the work done under the last administration a total of 13,480,538 acres has now been classified as coal land, at a valuation of \$637,619,418. At the \$10 to \$20 minimum rate these lands would have a valuation of \$218,289,942, so that the work done has resulted in a gain to the Government of nearly \$420,000,000. It may be noted that the proceeds of coal-land sales are all deposited to the credit of the "reclamation fund"—the fund that pays for the construction of the Government's vast water-storage projects.

The work involved in the classification and valuation of the nation's coal fields is immense and the scheme under which it has been worked out is remarkably accurate and scientific. The best evidence of its accuracy is the ready acceptance of the estimates and valuations by purchasers of coal lands and the fact that the Geological Survey is constantly receiving applications and petitions for the classification of coal lands.

The work involved in the classification and valuation of the nation's coal fields is immense and the scheme under which it has been worked out is remarkably accurate and scientific. The best evidence of its accuracy is the ready acceptance of the estimates and valuations by purchasers of coal lands and the fact that the Geological Survey is constantly receiving applications and petitions for the classification of coal lands.

FIRST GRADE PUPILS PRESENT PROGRAM FOR CHAPEL HOUR

The first grade of the training school furnished the entertainment at the chapel this morning. The program consisted of a song by the school, a cornet solo by Marshall Byrn, a group of Mother Goose songs and two solos by Miss Lucille Ross.

ARE WE READY?

The editor has been away for six months and is not very closely in touch with the situation with regard to our preparedness or lack of it for the approaching G. A. R. meeting. We are compelled to anticipate the presence here for two or three days of probably ten thousand people. This, in a city of six or seven thousand people and in a city of probably not to exceed 1,800 homes, means that we will be compelled as home-owners to submit to considerable inconvenience during those two or three days, in order that our reputation for properly caring for the stranger within our gates does not suffer in comparison with the reputation which we feel we have, nor in comparison with the results obtained by cities of our size or smaller.

We trust the city will not overlook this magnificent opportunity for advertising itself. And the best ad of all will be the unanimous verdict of the ten thousand people who come here that we can properly care for a convention of even such proportions as this. We should be upon our best behavior. We should send away 10,000 favorable impressions of this city as a desirable place in which to live, as a desirable place to locate for business and as a desirable place to come with other conventions.

In the vernacular of the streets, it is up to us to make good. We believe firmly that we will; but we cannot make good simply by permitting a belief of this kind to lie dormant. We must have this belief firm in the saddle and in action, and if it is not thus established and at work now, there should be no further time lost in getting busy.

We do not know that it is necessary to suggest to the Ypsilanti Industrial Association the unusual opportunity afforded it, as a concrete representative of the commercial development interests of the city, for advertising that feature of our municipality. We believe that the opportunity to get into a good many thousands of homes in other parts of the country effective advertising matter ought not to be lost sight of. And there are various other lines of advertising that will readily suggest themselves to our city, individually and in the aggregate.

The whole thing will either prove a good ad or a bad ad for Ypsilanti. It is up to us. Are we awake to the opportunity? Are we ready for the arrival of this multitude of guests?

IS IT SAFE?

There seems to be more or less controversy in the minds of some of our citizens as to whether the Congress street bridge in its present condition is safe enough to permit the heavy D. J. & C. cars, with their loads of human freight, to pass over it, without any danger of a serious accident. The new Kalamazoo cars are said to be several tons heavier than the other cars, and consequently it would seem to us that this matter ought to have the serious attention of the Council and that the public should be given the benefit of every doubt in placing this bridge immediately in such condition, or surrounding it with such restrictions, as will operate as an immunity against disaster. One thing it seems to us ought to be enforced literally, and that is the provision compelling the east-going cars at least to come as nearly as possible to a stop without stopping before they pass on to this bridge. Possibly this is already being observed by the railway company for their own protection, which is perfectly natural; but in face of the fact that there is quite a steep grade on the approach from the west, unless this precaution is exercised religiously, these big cars are apt to hit the bridge a very hard blow unless moving very slowly.

There is a heavy traffic of the railway company which passes over this bridge which, together with other traffic, scarcely permits of the complete cessation of vibration. It would of course seem little short of a business calamity to have both the railway and other traveling indefinitely suspended and this important link in our main thoroughfare closed for traffic. But safety should precede all other considerations.

IS IT SAFE?

LANSING—The state crop report just issued by the secretary of state reports the condition of wheat as 93 per cent of nominal as compared with 87 the first of April. The condition of oats is given as 92 and the acreage of oats sown is given as 96 per cent as compared with the average for the past five years.—Jackson Uatrol.

SAULT STE. MARIE—This city has practically gone on a sun time schedule, so far as its manufacturing in-

stitutions are concerned, over a thousand men being affected. The vote taken among the employees was almost unanimously in favor of more daylight. The matter is being taken up by the business men.—Kalamazoo Gazette.

ANN ARBOR—Prof. Albert A. Stanley, who is president of the American Section of the International Musical Society, is scheduled to appear in London where he will deliver a paper on the "American Festivals" the latter part of May.—U. of M. News-Letter.

ANN ARBOR—The University of Michigan makes sanitary analyses of water free of charge for towns, villages, and state institutions.—U. of M. News-Letter.

ITHACA—The first of the Ann Arbor railroad's new gasoline motor passenger cars have arrived in Ithaca.—Gratiot Co. Journal.

FLINT—With only six weeks intervening before the submission of the new city charter to the electors for their approval or rejection, it is learned than an educational campaign is to be started in favor of the commission form of government here.—Flint Journal.

KALAMAZOO—Preliminary steps of a safe and sane Fourth of July celebration here this year were outlined at the last meeting of the Commercial club.—Kalamazoo Gazette.

NATIONAL

BALTIMORE—The 20th annual meeting of the general society of the Daughters of the Revolution began here Tuesday and will continue until Friday. About 150 delegates are in attendance.—Flint Journal.

WASHINGTON—Postmaster General Hitchcock has designated 36 additional postoffices as postal savings depositories, which makes a total of 129 established since Jan. 1.

PASADENA—The program committee of the American Library Association has just published the program for its annual conference, which will be held here May 18-24. The president's address, by James L. Wyer, Jr., will be on "What the Community owes the library," and this will be the underlying theme throughout the sessions.—Christian Science Monitor.

NEW YORK—Mrs. Elizabeth W. Howland of Newport has given to the university settlement her estate near Fishkill-on-the-Hudson, for a summer home for 500 East Side children.—Christian Science Monitor.

CAMBRIDGE—Col. Thomas Wentworth Higginson, historian, author, minister and soldier, died at his home here Tuesday, aged 87 years.

NEW YORK—For the first time in the history of mankind the human voice carried 2,000 miles direct when New York found Denver this week over the long distance telephone wires.—Jackson Patriot.

KALAMAZOO—The Evening Press will be consolidated with the Evening Telegraph and the two papers issued from the office of the Telegraph.—Kalamazoo Gazette.

FOREIGN

LONDON—The memorial to Queen Victoria, which has been placed in the open space before Buckingham palace, has been disclosed to view. The actual unveiling will not take place until the German Emperor comes to England.

SIAM—A school of music has been formed at Bangkok.—Consular Reports.

CHINA—The contract for building the Chinese Parliament House at Peking was given to a German firm.—Consular Reports.

CAPARINE

FOR HEADACHES

A Headache Remedy compounded on strictly scientific principles. Contains no opiates. Relieves pain almost instantly, then works on the stomach and bowels, correcting indigestion, constipation or other irregularities. Caparine affords excellent relief for colds and grip; tones up the nervous system after a hard day's work.
